### DIRECTIONS FOR USE

#### RESTRAINT

Do NOT use in areas accessible to children

| SITUATION  | PEST          | RATE  | CRITICAL COMMENTS   |
|--|---------------|---|---|
| Domestic, industrial and institutional premises<br>Food preparation and storage areas  | Cockroaches   | 0.5 g – 1 g/m <sup>2</sup><br>applied with a<br>hand duster | Prior to applying Ultraforce Crawling Insect Powder, a thorough inspection of the premises to be treated should be carried out to establish where the cockroach population is harbouring.<br>Apply powder into cracks and crevices using a hand dust applicator.<br>Particular attention should be given to areas where insects congregate such as warm, dark areas and around heat sources such as stoves, radiators, fireplaces, etc.   |
| Nuisance ant activity<br>External use:<br>areas of premises and surrounding structures such as retaining walls, fences and garden beds<br>Internal use:<br>areas where ants are nesting or congregating in cracks and crevices such as electrical areas, wall cavities and other voids | Nuisance ants | 0.5 g per ant colony or congregation site                   | Using a hand held puffer, aim to apply a light covering of dust over as many ants as possible (approximately 20) at the entrance to the nest, in cracks and crevices and in other known harbourages.<br>The product can also be applied internally to areas where ants are nesting or congregating in cracks and crevices such as electrical areas, wall cavities and other voids. Enclose the treated area with caulking compound or seal treatment holes with tape.<br>Only re-treat after 30 days if ant activity continues to be a problem.<br>Ultraforce Crawling Insect Powder will control ants that have been directly treated and others that come in contact with the treated ants. For longer term protection from future nuisance ant invasion, an external application of a residual liquid such as Fipforce Aqua Termiteicide & Insecticide is recommended. |

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION**

#### GENERAL INSTRUCTIONS

Ultraforce Crawling Insect Powder is a ready to apply formulation and requires no further dilution. This product should not be mixed with other products. Powder should be left undisturbed for as long as possible. Approximately 3 compressions of a standard bulb duster equals 0.1 g of dust.

#### INSECTICIDE RESISTANCE WARNING

##### GROUP 2B INSECTICIDE

For insecticide resistance management Ultraforce Crawling Insect Powder is a Group 2B insecticide. Some naturally occurring insect biotypes resistant to Ultraforce Crawling Insect Powder and other Group 2B insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Ultraforce Crawling Insect Powder or other Group 2B insecticides are used repeatedly. The effectiveness of Ultraforce Crawling Insect Powder on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Sherwood Chemicals Australia accepts no liability for any losses that may result from failure of Ultraforce Crawling Insect Powder to control resistant insects. Ultraforce Crawling Insect Powder may be subject to specific resistance management strategies. For further information contact your local supplier or Sherwood Chemicals Australia representative.

#### PRECAUTION

Avoid contact with food, food utensils or surfaces that come in contact with food or food utensils. Before use,

remove or cover all exposed food, dishes, food utensils and surfaces that come in contact with food or food utensils.

#### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

#### STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool well-ventilated area out of direct sunlight. Shake and completely empty contents into dust application equipment. Do not dispose of unused chemicals on-site. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Empty containers and product should not be burnt.

#### SAFETY DIRECTIONS

May irritate the eyes, nose and throat. Repeated exposure may cause allergic disorders. Avoid contact with eyes. Do NOT inhale dust. When opening the container and using the product wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), elbow length PVC gloves and a disposable dust mask. Wash hands after use. After each day's use wash gloves and contaminated clothing.

#### FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre Phone Australia. 131126.

#### MSDS

Additional information is listed in the Material Safety Data Sheet.

#### CONDITIONS OF SALE

All conditions and warranties rights and remedies implied by law or arising in contract or tort whether due to the negligence of Sherwood Chemicals Australia or otherwise are hereby expressly excluded so far as the same may legally be done provided however that any rights of the Buyer pursuant to non excludable conditions or warranties of the Trade Practices Act 1974 or any relevant legislation of any State are expressly preserved but the liability of Sherwood Chemicals Australia or any intermediate Seller pursuant thereto shall be limited if so permitted by the said legislation to the replacement of the goods sold or the supply of equivalent goods and all liability for indirect or consequential loss or damage of whatsoever nature is expressly excluded. This product must be used or applied strictly in accordance with the instructions appearing hereon. This product is solely sold for use in Australia and must not be exported without the prior written consent of Sherwood Chemicals Australia.
