Batch Number:

Date of Manufacture:

APVMA Approval Number: 62464/43173

DIRECTIONS FOR USE:

Sweet feeding ant species and cockroaches will feed on Gourmet Liquid Ant Bait until they die.

SITUATION	USE	RATE	CRITICAL COMMENTS
Domestic and public service areas where foraging sweet feeding ants (such as, but not limited to, Argentine, white-footed, yellow crazy and pharaoh's ant) and cockroaches are sighted indoors	Place bait station indoors near to ant trails or in areas where ants or cockroaches are seen such as, kitchens and bathrooms, laundry rooms, in cabinets, on window sills, behind refrigerators and stoves, around water pipes and in cracks and crevices.	20–500 ml per bait station	The bait is designed to work slowly and sufficient bait should be made available for at least 14 days continuous feeding. The ants will return to their nests after consuming the bait and will feed the colony. Use large volumes where large, diversely populated colonies are present and/or where a single feeder tray is employed.
Domestic and public service areas where sweet feeding ants (such as, but not limited to, Argentine, white-footed, yellow crazy and pharaoh's ant) and cockroaches are sighted outdoors	Where ants or cockroaches are seen entering the building, place bait station along walkways, directly on ants' nests and in cracks and crevices around windows, on exterior window sills and near exterior doors. Outdoor bait stations may be used to set up a perimeter defence around structures at 15 m intervals		Do not use less than 100 ml for one ant colony. Renew bait until desired level of control is achieved Results on ants and cockroaches may not be obvious for a number of weeks.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS: Gourmet Liquid Ant Bait is to be used at full strength. Use in a bait station as supplied. Bait may be used in Ant Cafe, Ant Café Outdoor, Antopia® Bait Stations, KM AntPro Bait Stations or other similar stations that are sold separately. Visible results will vary with the type of ant being treated, the amount of bait being used, the size and location of the colony, and the foraging distance of the ants. When using bait stations, wash hands thoroughly before handling to remove odors that may be repellent to ants, i.e. tobacco, garlic, chemicals/cleaners.

PRECAUTIONS: Should not be used in areas accessible to children. DO NOT place baits in locations where washing operations may transfer diluted bait to food or food preparation areas. DO NOT place product in locations that are accessible to children, domestic animals, livestock or birds. DO NOT use sprays, foggers or any chemicals or cleaners near bait. This may contaminate the bait and cause the insects to stop feeding.

STORAGE & DISPOSAL: Store in the closed original container in a cool dry place out of reach of children. Do not store in direct sunlight. Triple rinse containers before disposal. Do not dispose of undiluted chemicals on site. Dispose of at a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers.

SAFETY DIRECTIONS: May irritate the eyes. Avoid contact with eyes and skin. If on skin and after each baiting, wash thoroughly with soap and water.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone, Australia: 131126; New Zealand 0800 764 766. If swallowed, do NOT induce vomiting. Give a glass of water. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

MATERIAL SAFETY DATA SHEET: Additional information is listed in the Material Safety Data Sheet (available from the distributor)

CONDITIONS OF SALE: The use of Gourmet Liquid Ant Bait is beyond the control of the manufacturer.
