Smoke Generator 31G

Active Constituent: 135g/kg PERMETHRIN (25:75)

Also Contains: 127g/kg POTASSIUM CHLORATE

For the control of Ants, Flies, Fleas, Silverfish, American and German Cockroaches, Weevils, Spiders, Caterpillars and Aphids as per the Directions for Use.

GROUP 3A INSECTICIDE

NRA Approval No: 52427/0700

Pack size: 31 g NET

UN NO. 3077 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID,
N.O.S. (CONTAINS PERMETHRIN)
PACKING GROUP III HAZCHEM 2X

GENERAL INSTRUCTIONS

Insecticide Resistance Warning

For insecticide resistance management IMPERATOR Smoke Generator 31G is a Group 3A insecticide.

Some naturally occurring insect biotypes resistant to IMPERATOR Smoke Generator 31G and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if IMPERATOR Smoke Generator 31G or other Group 3A insecticides are used repeatedly. The effectiveness of IMPERATOR Smoke Generator 31G on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Syngenta Crop Protection Pty Limited accepts no liability for any losses that may result from the failure of IMPERATOR Smoke Generator 31G to control insects.

IMPERATOR Smoke Generator 31G may be subject to specific resistance management strategies. For further information contact your local supplier, Syngenta Crop Protection Pty Limited representative or local agricultural department agronomist.

Remove people, animals, fish and birds from area to be treated. For best results ignite the generator late in the evening and leave area closed overnight. Place the generator on a fireproof base at least 700 mm in diameter, on a protective floor covering or in a metal bucket. To ignite, remove plastic cap from canister and, using a match, light exposed fuse. Always ignite those generators furthest away, lighting those nearest your exit last. Leave immediately after lighting smoke generators. The generator will burn for approximately 30 to 45 seconds, however keep area airtight for at least 3 hours after lighting. Ventilate for 30 minutes before re-entry.

PRECAUTIONS

DO NOT USE IN PREMISES WHEN FOOD PRODUCING ANIMALS ARE PRESENT.

REMOVE OR COVER EXPOSED FOOD, FOOD UTENSILS, FOOD PROCESSING AREAS, PET BOWLS AND FISH TANKS.

AERATORS SHOULD BE TURNED OFF WHILE THE PRODUCT IS IN USE AND WHILE THE AQUARIUM IS COVERED.

DO NOT APPLY WHERE SMOKE DETECTORS ARE INSTALLED. Remove all RAYON and SILK fabrics (clothing, curtains, drapes, etc) from the area to be treated as discolouration may result.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Extremely dangerous to fish. Fish tanks and aquaria should be removed or covered prior to use of this product. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well ventilated area out of direct sunlight. Dispose of used smoke generator safely, wrap empty generator in paper and place in waste bin. DO NOT reuse.

SAFETY DIRECTIONS

DO NOT inhale vapour. Leave immediately after lighting smoke generators. Thoroughly ventilate treated areas before re-occupying.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.

MATERIAL SAFETY DATA SHEET

If additional hazard information is required refer to the Material Safety Data Sheet. For a copy phone 1800 067 108, or visit our website at www.syngenta.com.au

MANUFACTURER'S WARRANTY AND EXCLUSION OF LIABILITY

Syngenta has no control over storage, handling and manner of use of this product. Where this material is not stored, handled or used correctly and in accordance with directions, no express or implied representations or warranties concerning this product (other than non-excludable statutory warranties) will apply. Syngenta accepts no liability for any loss or damage arising from incorrect storage, handling or use.

Smoke Generator 31G

DIRECTIONS FOR USE

| Situation | Insect | State | Rate | Critical Comments |
|---|--|---------------------------------|----------------------------------|--|
| Commercial, industrial, domestic and public services areas | Ants, Flies, Fleas, Silverfish, American Cockroaches, Spiders, Caterpillars, Aphids. | All States | 1 generator/ 220 cubic metres | Refer to "General Instructions" before using this product. Only insects active at the time of smoke release will be controlled, but those hatching from eggs, immigrant insects or storage insects emerging from commodity residues may not be controlled. |
| Glasshouses Ornamentals only | Caterpillars, Aphids | Qld, NSW, Vic, Tas, WA, NT only | | If pest populations are heavy, a second smoke release 2 to 3 days later may be required to reduce the insect population to an acceptable level. For best results use late in the evening, leaving treated area closed-up overnight. |
| | Ants, Flies, Fleas, Silverfish, American and German Cockroaches, Spiders | All States | | |
| Agricultural buildings including animal housing | Weevils | Qld, Vic, Tas, WA, NT only | | |
| | Ants, Flies alone | All States | 1 generator/ 440 cubic metres | |

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.
